**RE: Petition to Make Special- Expedited Examination**

Dear Mr. Kalinowski,

9/25/03

I wanted to bring to your attention that my patent application 09/ 583, 336 is on its way back to you. I spoke with Beverley Flanagan, Petitions Supervisor, the other day and she informed me that the Petition to Revive I filed for this application has been granted.

Therefore, the file will come back to you so you can review my response to your first office action.

Since this application was granted an expedited review (see attached petition granted) I would appreciate it if you could review my response with all due speed.

Please call me if you have any questions.

Sincerely,

William Reeves, Inventor
